

CWSF 2011 - Toronto, Ontario

Kathryn Bowers

A Balanced Approach to Art

Challenge: Health

Category: Intermediate

Region: Eastern Newfoundland

City: Paradise, NL

School: Holy Spirit H.S.

Abstract: This project studied visual preference and whether a person would intrinsically prefer more balanced images. Subjects were grouped according to age and gender and were asked to select their preference between a pair of images. Further study was warranted when it was noted that pre-school subjects both picked and responded in an atypical way than all other age groups studied.

Biography

Kathryn Bowers is from Paradise Newfoundland & Labrador, and attends Grade 9 at Holy Spirit High School. She is a member of numerous committees and activities at school including Student Council, School & Cabaret band, Interact Club, Dance committee and is the Setter for the Grade 9 and Junior Girls Volleyball team. Kathryn is also involved in outside activities including Youth and Senior band at her church, singing with the group "Cry-Out", and volunteering with her church Youth group. Kathryn attended the Canada Wide Science fair last year and was delighted to receive a Gold medal in the Junior Health Science division. She was thrilled to be chosen again this year to represent her region in the Canada Wide Science Fair and is looking forward to another exciting and informative experience at CWSF 2011!
