

## CWSF 2005 - Vancouver, British Columbia

### Katrina Pyne

#### Lip Balms Away!

**Division:** Health Sciences

**Category:** Junior

**Region:** Frontenac, Lennox & Addington

**City:** Kingston, ON

**School:** Calvin Park Public School

**Abstract:** 'Regular' lip balms were compared based on medical benefits, usage qualities and lack of negative health issues. Most of the categories were determined by the amount of 'wet' feel they created. The oil based products had a great advantage because of this. My recommendation is to stay away from 'regular' lip balms as they give a false sense of security.

Awards	Value
Honourable Mention - Health Sciences - Junior	\$100
Sponsor: Canadian Institutes of Health Research	
Total	\$100
