Lead it out of the bag

Challenge: Health

Category: Junior

Region: Northern British Columbia

City: Fort St. John, BC

School: Bert Bowes Jr Secondary

Abstract: The purpose of this project was to determine whether or not there is lead in reusable shopping bags. three of the five bags contained lead, and no lead was detected in the other two bags.

Biography

I am a grade 7 student at Bert Bowes Junior Secondary School in Fort St. John, BC. I have made it to the Northern BC Regional Science Fair three times. I have won the BC Science Teachers' Award and the Al Appleton Worksafe Award. I got gold medals all three times that I went. I play the piano, I like singing, and I also like horseback riding. I also enjoy snowmobiling and quading.
