

ESPC 2005 - Vancouver (Colombie-Britannique)

Lauren Gillis

An A"Maize"ing Plan for the Planet

Division: Sciences de la terre et de l'environnement

Catégorie: Intermédiaire

Région: Strait

Ville: Port Hawkesbury, NS

École: Strait Area Education and Recreation Centre-SAERC

Sommaire: The One Tonne Challenge asks Canadians to reduce their greenhouse gas emissions by one tonne. The purpose of my project is to discover how large of an area of corn would be needed to fix one tonne of carbon dioxide.
