

ESPC 2011 - Toronto (Ontario)

Eleesha Wijeratne, Andrew Chipka

Efficient Combustion

Défi: Environnement

Catégorie: Intermédiaire

Région: Toronto

Ville: Toronto, ON

École: Bishop Allen C.S.S.

Sommaire: With the increasing cost of gasoline prices, a new source of fuel must be employed. Gasoline, diesel, kerosene and bio-ethanol were tested to determine which fuel is most efficient. It was concluded that the most efficient was bio-ethanol because it had the greatest change in temperature and burned the cleanest.

Biographies

Eleesha - Even as a child my goals were set. At 8 I spent time trying to build robots with my father's tools instead of playing with barbies. I realized my dream of being an engineer at 12, when given an inspirational speech from a supply teacher. I am a gifted student, and decided to attend Bishop Allen Academy because of their AP program. I enjoy playing a variety of sports such as volleyball, soccer, basketball, tennis, softball, etc. My greatest hobby is dancing, I am told I am good at it, and am not shy to perform. I try to be very involved in my school by joining clubs, trying to build on my leadership skills. During summers I volunteer at a loc...

Andrew - I have went to the chess program at elementary school. I've also played through 8 grades of the Royal Conservatory of Music. I have participated in the Pascal and Cayley math contest. I have also attended to Ukrainian Saturday school for 9 years.
