Tray MacDonald, Callum Pickles

File ScanX

Challenge: Information

Category: Junior

Region: Cape Breton

City: Sydney, NS

School: MacLennan Junior High School

Abstract: File ScanX is a computer software that scans programs (ex: iTunes) for missing or damaged files! Ex: If you had an error on Windows Word 2007 and the error was saying "Missing Sample.DLL File" File ScanX will automatically find the problem and then do a web search on Google© to give you suggestions to fix the problem or download the file that is missing.

Biographies

Tray - I'm Tray macdonald from MacLennan Jr. High! I'm the CO-CEO/graphics of Livesystem.ca. Were a small company of programmers creating newer and better technology. I also workout, boxing, computer fixing. I got the idea of my project from an error I was getting from iTunes (I was getting an error saying I was missing a file). We are also the first company to ever make this kind of compatible computer program. We do have new investigations, I'm trying to get some company's to look at this program and make some money off my product, or ever invest into my company. My advice to other students is like my motto "Geter done", and finish what you've sta...

Callum - I'm Callum Pickles from MacLennan Jr. High! I'm the CEO/programmer of Livesystem.ca. Were a small company of programmers creating newer and better technology. I also play hockey, drums, baseball, basketball, soccer. I got the idea of my project from an error I was getting from iTunes (I was getting an error saying I was missing a file). We are also the first company to ever make this kind of compatible computer program. We do have new investigations, I'm trying to get some company's to look at this program and make some money off my product, or ever invest into my company. My advice to other students is like my motto "Keep it simple, and fini..."
