

## ESPC 2005 - Vancouver (Colombie-Britannique)

### Michelle Fulmore

#### Music and Memory

**Division:** Sciences de la vie

**Catégorie:** Sénior

**Région:** Chignecto East

**Ville:** Pictou, NS

**École:** Pictou Academy

**Sommaire:** This project attempted to determine how music and memory are linked. It examined six different genres of music, verbal and visual memory, as well as different volumes of music. The main conclusion was that music preference is a factor in how music affects one's memory.
