What You Don't Know About Your Hand Cleansers

Challenge: Health

Category: Junior

Region: Northern Manitoba

City: Flin Flon, MB

School: École McIsaac School

Abstract: To determine which of 5 different hand cleansers/sanitizers would reduce the most bacteria off hands, their effects on the environment and peoples health, and the best overall treatment to cleanse your hands with.

Biography

Hi! My name is Louisa Morin and I am in the eighth grade at Ecole McIsaac School in Flin Flon, Manitoba. This will be my second time coming to the Canada Wide Science Fair and I am thrilled to have the opportunity to return. Some of my hobbies are music, as I play clarinet, piano, guitar, bass guitar and take voice lessons. Also, I like sports such as volleyball, basketball, skiing, and badminton. I am really excited to go to PEI because I have never been there before and have heard so many great things about it. I also can't wait until the science fair approaches and am excited to see my old friends from last years fair and meet new ones as well!
