

## CWSF 2012 - Charlottetown, Prince Edward Island

### Can You Give Cleaning A Greener Meaning?

**Challenge:** Environment

**Category:** Intermediate

**Region:**

**City:** ,

**School:**

**Abstract:** Two brands of "environmentally friendly" cleaners and two common dish soaps were tested for effects on vegetation, cleaning ability, harshness on skin and cost. These "environmentally friendly" cleaners proved to have less harmful effects, clean equally as well as regular soaps and can help us make better choices when it comes to washing dishes and doing our part to protect our environment.
