

## CWSF 2012 - Charlottetown, Prince Edward Island

### Emilie Leneveu

#### Do You Multitask?

**Challenge:** Health

**Category:** Intermediate

**Region:** Quinte

**City:** Quinte West, ON

**School:** École secondaire publique Marc-Garneau

**Abstract:** The purpose of this project is to determine the negative effects of multitasking, if they exist, and how to improve on net time savers. In order to do so, 90 students and 50 adults performed the same tasks but in different ways to demonstrate the effects multitasking has on their accomplishments and how it alters their productivity levels.

#### Biography

My name is Emilie Leneveu. I am 14 years old and attend Marc Garneau Secondary School in Trenton Ontario. I love mathematics and the sciences. I participate in several extracurricular activities such as piano, volleyball and costume design. I hope to continue to do well academically and later go on to University. When I am older I wish to be a mathematics or science teacher, but there is also the possibility of becoming a marine biologist or radiologist. I am excited and honoured to be a finalist at the Canada Wide Science Fair for a third year.
