

ESPC 2012 - Charlottetown (Ile-du-Prince-Édouard)

Keisha Googoo, Sarah Bernard

Composite vs. Non-Composite Images

Défi: Information

Catégorie: Sénior

Région: Mi'kma'q First Nation

Ville: Eskasoni, NS, eskasoni, NS

École: Eskasoni High School

Sommaire: We are showing a study of composite and non-composite images and how scientists study beauty. We will also be showing the software program on how composite images are made and how you can make your own. We will be giving you our point of view on attractiveness, scientists point of view, and maybe you can also give us your point of view!

Biographies

Keisha - My name is Keisha Googoo, i am 16 years old attending the Eskasoni High school in 11th grade. I am very interested in the science field in my school and plan to go to Dalhousie university to become a doctor. I have gotten valedictorian in Jr High and plan to try for it again in high school. Our project plan began when people told us that we cant be as beautiful as the people in magazines. For further investigation, we are going to give ourselves and our friends composite faces. We would advise students that being beautiful doesn't mean being fake or composite or even photo shopped and that they can investigate the fashion magazine magic by do...

Sarah - My name is Sarah Bernard, I am 17 years old. I am attending Allison Bernard Memorial High School in Eskasoni. I am in grade 11. I plan to graduate high school, im not sure which university i want to go to but i am interested in becoming a marine biologist. Our project plan began when people started telling us that was cant be as beautiful as people in magazines. For further investigation, we are going to give ourselves and our friends composite faces. We would advise students that being beautiful doesnt mean being fake or composite or even photoshopped and that they can investigate the fashion magazine magic by doing a beauty project simililar...
