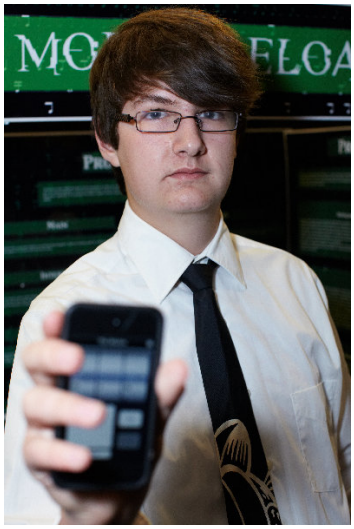
CWSF 2012 - Charlottetown, Prince Edward Island



Musical Modulations: The Modex Reloaded

Challenge: Innovation
Category: Intermediate
Region:
City: ,
School:
Abstract: My goal for my science fair innovation, the Modex, was to create an iPhone app that can create a musical transition between any 2 major keys. Last year I created a prototype in a beginner programming language called Scratch, but this year I accomplished my original goal of creating an iPhone app.
