

# CWSF 2005 - Vancouver, British Columbia

## Sarah Kerbrat

### Marigolds

**Division:** Earth & Environmental Sciences

**Category:** Junior

**Region:** Pacific Northwest

**City:** Smithers, BC

**School:** Smithers Secondary School

**Abstract:** The purpose of my experiment was to determine if bone meal added to soil before transplanting plant seedlings, enhances and promotes growth. To determine this I created 3 different growing mediums and compared them for plant height, speed of initial flowering and total number of flowers produced.

Awards	Value
Honourable Mention - Earth & Environmental Science - Junior	\$100
Sponsor: Petro-Canada	
Total	\$100
