

ESPC 2005 - Vancouver (Colombie-Britannique)

Anjali Pandey

The Backseat Driver

Division: Sciences de la vie

Catégorie: Junior

Région: Northern Manitoba

Ville: Thompson, MB

École: Burntwood Elementary School

Sommaire: I used a computer program to determine how backseat driving affects the attention levels of middle-aged drivers in high and low density traffic. After asking 12 participants to run the charted course in a neutral state and then while being backseat driven, I concluded that their overall performance deteriorated.

Prix	Valeur
