Joshua Hill, Jewel Heathen

Student Behavior

Challenge: Health

Category: Senior

Region: Saskatchewan First Nations

City: Onion Lake, SK

School: Eagleview Comprehensive High School

Abstract: This study aimed to investigate why students behave one way with regular teachers and behave differently to substitute teachers. Most perceive that having a substitute is like having a "cake day". What happens when students are expected to learn from a substitute teacher? We looked at the substitutes', the students', and the teachers' points of view on the effectiveness of substitute teaching and their expectations.

Biographies

Joshua - My name is Joshua Hill, and I am the second oldest of six siblings. I enjoy school, although my first memory of school was not pleasant. When I was young I was put into a learning disability program because of my speech impediment. My teachers did not recognize that I was capable of understanding the materials. I just needed a chance to express my speech. My interest in the sciences began at an early age when I took first place in my grade five science fair. I started to have the courage to trust my knowledge of the world. My passion for the sciences grew when I discovered psychology. I enjoy seeking answers to human behavior. When I found out I ...

Jewel - My name is Jewel Heathen, I am 16 years old. I have 2 sisters and 1 brother. We all live on the Onion Lake First Nation. I attend Eagleview Comprehensive High School, and I'm in grade 10. Our school is proud of us because we are the first students to attend the National Science Fair. I enjoy spending time with friends. We like to create beaded jewelry. My friends are excited for me to be representing our community. I became interested in science when I decided to become a nurse. I realized that I need to have good grades in science and math. By participating in our school fair, I wanted to develop my skills as a scientist. My science partn...
