

## CWSF 2014 - Windsor, Ontario

### Mitchell Beckedorf

#### Enlightening Plant Growth

**Challenge:** Discovery

**Category:** Junior

**Region:** Southeast Alberta

**City:** Medicine Hat, AB

**School:**

**Abstract:** This is an expansion project from last year's school science fair. I know that bean plants can grow under artificial light from last year's project but this year I am trying to find out if different types of light bulbs will affect the bean's growth as different light bulbs produce light in different ways.
