

CWSF 2014 - Windsor, Ontario

Kara Miskolczi, Nicholas ven der Buhs

I - Power - My - Pod

Challenge: Innovation

Category: Junior

Region: Carlton Trail

City: Englefeld, SK, Humboldt, SK

School: Englefeld School

Abstract: We constructed a solar panel by taking little solar panels and we recycled them to make an iPod charger. Kara's iPod touch didn't hold charge. Apple will charge you about \$100 to replace the battery. So why not make a reusable energy resource that helps the environment and cost little if you use recycled objects.

Biographies

Kara - My name is Kara Miskolczi. I like keeping busy by getting involved in my school and community. I play volleyball, badminton, and I also do track and field. I am involved in my church, junior lifeguarding, and drama. My hobbies include, photography, drawing, reading, swimming, hanging out with friends, and playing piano. I also love to play with my dog. When I graduate I would like to become an architect because I love the way you can make something look and I'm always playing Super Home Suite on my computer. I am working on my Grade Five piano. I have one medal in each of these activities, piano, dance, and volleyball. I also won twice in my ...

Nicholas - My name is Nicholas vander Buhs. I was born in Melfort SK, and currently live on an acreage in Englefeld SK, I play lots of sports like Hockey, volleyball and badminton. I love to hunt, fish, be active, go outside, drive my dirt bike and hang with my friends. I am planning to be an engineer (not quite sure of what kind.) My hockey team in 2011 won league and I can't even describe how happy I was to win it. My family likes to travel to fun places like Disney Land, Cypress Hills, B.C. on a big camper adventure and lots more. I got my inspiration from Kara's older sister who built a solar panel out of Coke cans. We decided to make our own so we ...
