

## CWSF 2014 - Windsor, Ontario

## **Wood Fuels My Car**

Challenge: Energy Category: Junior

Region: City: School:

**Abstract:** Wood gas downdraft boiler with filtration system that smolders wood pellets

producing gas that can be used to run all types of engines. This gasifier is currently being installed on a Volkswagen golf diesel engine with the addition of a hydrogen fuel cell, that will produce low emissions while using

a renewable resource.
