#### More Accuracy at a Lower Cost?

**Division:** Engineering & Computing Sciences

**Category:** Senior

**Region:** CDLS - Province du Québec

**City:** St-Laurent, QC

**School:** Marianopolis College

**Abstract:** This project investigated the validity of psychological experiments that are conducted over the web. Specifically, an experiment that was previously published and conducted in a lab environment was faithfully recreated online. The results of both experiments were then statistically compared to verify the accuracy of the web experiment.
