

CWSF 2015 - Fredericton, New Brunswick

Jazlyn Harper, Gerone Dimalanta

Ne clignez pas!

Challenge: Health

Category: Junior

Region: Regina

City: Regina, SK, Regina , SK

School: École St. Mary

Abstract: Our question is: Does perfect vision and imperfect vision have an impact on how long a person can keep their eyes open? During the experiment one hundred people participated by staring at a wall without blinking. The participants were also asked to compete against someone with opposite vision. The results were recorded and compared, determining the answer to our question.

Biographies

Jazlyn - Hello, my name is Jazlyn Harper, I am 13 years old and in grade 8 at Ecole St. Mary School. Our school science fair has been my all time favourite part of the school year ever since grade six when I started. I used to always do environmental projects until I realized it would be more interesting if I did things that related to my personal life. To further my investigation on my project I would like to find more things that our project impacts. Other than just staring contests. To all the students that are trying to find a project my advice to you would be to incorporate things in your personal life and make them into science but also making s...

Gerone - Hello, my name is Gerone Dimalanta. I'm 13 years old from Regina, Saskatchewan! I currently go to a french immersion school in grade 8. I cannot believe that I got 2nd in our city regional science fair! I'm so stoked to go to Fredericton, NB! The inspiration for our project is that I did a staring with my friend and he tricked me by saying that people with glasses would win if you took of your glasses. So I did the contest, and I LOST! I got SO mad! So I wanted to see if it was true. Our question is: Does perfect and imperfect vision have an effect on how long you can leave your eyes open. Some plans that I might have in further investigation...
