Addison Okell

What Blocks WIFI signals

Challenge: Information

Category: Junior

Region: Sunset Country

City: Balmertown, ON

School: Golden Learning Centre

Abstract: I wanted to do my project topic because we have problems with our internet at home with not being able to connect and then when we do it is a bad connection so I and I figured other people most have this problem so I wanted to see if there was anything I could do to make it better.

Biography

My name is Addison Okell. I was born in Winnipeg Manitoba and moved to Balmertown Ontario when I was 3 years old. Balmertown is a small mining town (about 6 hours north of Thunder bay). Some of my interests are Physics, Computer Science, and Mathematics. I hope to be a Physicist when I am older. This year I participated in the Kangaroo Math contest. My inspiration for my project came from our bad internet connection at home. I hope to be able to further my research by testing more objects and on different routers. For anyone doing a science fair project I would say find a topic that you are interested in and that you will enjoy talking about and educating people on.
