Siobhan MacDonald

Micro Hydro - Do a Lot, With a little

Challenge: Resources

Category: Senior

Region: Strait

City: Mabou, NS

School: Dalbrae Academy

Abstract: I calculated the potential power output of home Micro Hydro sites and used my results, in combination with watershed information, to determine the potential impact wider use of eco-friendly systems like this could have on the community of Mabou, in terms of affordable renewable energy.

Biography

My name is Siobhan MacDonald, I am in grade 11 at Dalbrae Academy. I live in Mabou Cape Breton. My project is Micro Hydro: Do a Lot, With a Little? discovering the impact of Micro Hydro in communities. I am an avid sailor and spend my summers on the water racing and coaching. During the fall and spring I participate in Dalbrae Academy's art program, performing in variety shows. I plan to follow the sciences when I graduate, possibly following the path of medicine
