Kierra Sack

Colourful Choices

Challenge: Discovery

Category: Junior

Region: Mi'kma'q First Nation

City: Indian Brook, NS

School: Riverside Education Centre

Abstract: Survey of 100 participants to determine their preference of a colour of a liquid and why they chose that colour. Research was conducted to better understand perceived preferences in regards to colour.

Biography

My name is Kierra Sack and I am a grade 8 student at L'nu Sipuk Kina'Mukuoum in Indian Brook Nova Scotia. I enjoy beading, drawing and spending time with family and friends. The inspiration for my science project was my curiosity in regards to human behaviours. I plan to continue my project through increased testing. If I could give advice to others, I would tell them to make sure you have enough test subjects to gather more data.
