How Cold Affects Bacteria Growth

Challenge: Health

Category: Senior

Region: Kivalliq

City: Naujaat, NU

School: Tusarvik School

Abstract: My project is about how bacteria grows in cold temperatures and regular room temperature, I wanted to see how our ancestors survived without catching any diseases from their food. I swabbed various objects and meats and on agar to observe the growth of the bacteria at different temperatures.

Biography

My name is Veronica Uttak, I am currently in grade 12, I live in Naujaat, Nunavut. I travelled to many provinces and territories, and to 3 other countries. I was interested in this project because I wanted to see how bacteria can grow in different temperatures.
