Human Growth Hormone and Diabetes

Challenge: Health

Category: Senior

Region: Mi'kma'q First Nation

City: Eskasoni, NS

School: Eskasoni High School

Abstract: Diabetes has always been a topic that I've been interested in, it has been a major factor in our community, diabetes has also touched my home. My brother was diagnosed with diabetes two years ago after a major growth spurt, he was 16. Upon reading information on the human growth hormone it suddenly dawned upon me that the two may be linked.

Biography

I am 16 years old from Eskasoni, Nova Scotia. I am in grade 10 attending Allison Bernard Memorial High School, I am enjoy working out, reading and hanging with friends. My future career plans are to become a physiotherapist. I chose my project " How Do Cell Phones Affect " to educate younger students, including myself how much cell phones affect your grades, sleep and social life.
