Sarah Halyk

Good Fill, No Spill

Challenge: Environment

Category: Junior

Region: Parkland

City: Foam Lake , SK

School: Foam Lake Composite High School

Abstract: I tested the 3 main types of landfill liners for the leakage of leachate to see which one would work the best. I did two simulation tests and one pressure test and i found out that the clay liner works the best.

Biography

I'm Sarah Halyk, a grade seven student at Foam Lake Composite in Foam Lake Saskatchewan. I enjoy being active and being involved in school and community activities. I'm currently playing baseball, a member of the Dance Club, school Drama club and I'm getting ready for a piano exam in June. I play all school sports and particularly enjoy volleyball and basketball. I volunteer with my church and with my school's WE Create Change club. When I have spare time I enjoy reading, hanging out with friends and spending time with family. This year was the first time I did a science project, and this is my first time attending Canada Wide.
