Hayley Totalik

No Apple, Apple Pie

Challenge: Resources

Category: Intermediate

Region: Kitikmeot

City: Taloyoak, NU

School: Netsilik School

Abstract: I made two apple pies, one with apples and one with apples. For the pie without the apples I used; Cream of tartar, sugar, buttery crackers and lemon zest. And I made sure to use the same pie crust to that the pies taste the more alike.

Biography

My name is Hayley Totalik and I'm from Taloyoak, Nunavut. I'm 18 years old and I go to Netsilik school. I love to travel and my favourite sport is volley-ball. I love art and I'm really interested in makeup, and I also like to bake. After high school I'd like to attend Nunavut Sivuniksavut which is a program in Ottawa that teaches about inuit studies. One of my goals is to become a makeup artist and to travel and explore the world. What inspired me to do my project was baking apple pie without actually using apples. For further investigations I'd like to try that experiment with other fruit. An advice I'd like to give is make sure you blind fold your test testers before having them try the pies.
