

CWSF 2017 - Regina, Saskatchewan

Jacob Crappier

Qui a la meilleure vision : les garçons ou les filles?

Challenge: Health

Category: Intermediate

Region: Peace Country

City: St-Isidore, AB

School: École Des Quatre-Vents

Abstract: Mon expo science vise à savoir qui d'entre les gars et les filles peut distinguer plus facilement les nuances dans les couleurs. Les deux groupes, quinze gars et quinze filles, ont tous fait le même test de vision qui a conduit à mon résultat final. Vous voulez connaître le gagnant? Venez visiter mon kiosque.

Biography

My name is Jacob Crappier and I've been attending École des Quatre-Vents in Peace River since grade 7. My favorite classes have always been Science and Math. I plan to study in computer technology later on; perhaps creating games, programs or fixing computers. Outside of school I skateboard, bike, snowboard, hike etc. I play in every school sport that is offered and I love it. Of course, I love gaming on my computer, which takes a lot of my time. Besides all that, I prefer hanging out with my friends. To earn some money, I work as a shadow coach at the gymnastic center in Peace River. I am proud to be here in Regina for the Science Fair.
