

ESPC 2017 - Regina (Saskatchewan)

Lainee Johnson

How High/Low Can You Go?

Défi: Santé

Catégorie: Intermédiaire

Région: Mi'kma'q First Nation

Ville: Eskasoni, NS

École: Eskasoni High School

Sommaire: My project is about exploring different types of vocal ranges, ranging from different genders and ages 20 and up. In my daily life, music plays a big role. I enjoy playing instruments like the Guitar and piano. This inspired me to revolve my project and experiment around music, and the science behind singing and different vocal ranges.

Biographie

Hello, My name is Lainee Johnson. I am currently 15 years old attending Alison Bernard Memorial High School in my community of Eskasoni, N.S. I am Mi'kmaq, First Nation. I am the youngest of 6 children. I am involved in the Interact group in my school, which is mostly volunteering and coming up with ideas to better our School and our community. I really enjoy playing sports, such as Baseball, Volleyball, Basketball and Soccer. My family is very much involved in music and my Sister is a singer. This inspired me to explore more about the science behind singing and to explore different vocal ranges. I think that everyone should do a science project because it is truly very interesting and it opens many doors for the future.
