

ESPC 2006 - Saguenay (Québec)

Mitchell Haw

An Icy Life

Division: Sciences physiques et des mathématiques

Catégorie: Junior

Région: Sunset Country

Ville: Stratton, ON

École: Sturgeon Creek School

Sommaire: Four de-icing solutions were tested to discover the degree of harm each caused toward the growth and health of red pine seedlings. The "sand"/"salt" seedlings had the greatest amount of new growth after watering the conifers for 15 days using water (emerging from dormancy,) and eleven days using de-icing solutions.

Prix	Valeur
