Connor O'Neill

Fuel of the Future

Division: Génie et sciences de l'informatique

Catégorie: Junior

Région: Chatham-Kent

Ville: Chatham, ON

École: St. Ursula E.S.

Sommaire: I made bio-diesel out of 3 different types of vegetable oils and I blended it with regular diesel fuel. I am going to determine which vegetable bio-diesel will create more heat and burn the least amount of bio-diesel in the shortest time.
