Abstract: My project deals with the mathematics of X-raying. More exactly, it belongs to the important and fast-developing area called geometric X-raying. The concept of the X-ray number (X_n) was introduced by P. Soltan in 1972. My work is centered on this notion, and introduces new concepts like the circular X-ray number, the X-raying parameter (X_p) and proves new theorems on them.

Awards	Value
Canadian Mathematical Society Award - Junior Sponsor: Canadian Mathematical Society	\$250
The University of Western Ontario Scholarship Silver Medallist - \$1500 Entrance Scholarship Sponsor: University of Western Ontario	\$1 500
Silver Medal - Physical & Mathematical Sciences - Junior Sponsor: Encana Corporation	\$700
Total	\$2 450
