Denicka Spence, Rhianna Spence

Growth Analysis of *Vigna radiata* Treated with Four Different Water Media

Challenge: Discovery

Category: Junior

Region: Keewatin

City: Nelson House, MB, Nelson House, MB

School: Otetiskewin Kiskinwamahtowekamik

Abstract: Our project aims to see if there is a difference in the growth of mung beans based on what they are watered with. By watering the mung beans with four different water mixtures and measuring them regularly, we examined our hypothesis.

Biographies

Denicka - my name is Denicka Spence. I'm from Nelson house, MB. I'm 14 years old and I have 3 sisters and 4 brothers. I love to play sports like soccer, hockey, baseball, and volleyball. I love to listen to music and hangout with my friends and family. My favorite thing to do with my family is going camping and being home with them. I'm in grade eight, and a perfect attender, having never missed school. My favorite subjects in school are gym, ELA, and science. My classmates are nice and we all get along very well as friends.

Rhianna - My name is Rhianna Spence I am from Nelson House MB and i am 14 years old I'm in grade eight. I'm very shy when it comes to meeting new people. I'm very weird all the time and very loud at home. I love kpop (Korean pop). my hobbies are: listening to music, playing sports (basketball and badminton), sleeping long on weekends or holidays. I love hanging out with both my friends and family, but i like to hang out with my family more because we laugh lots together. It's fun when I laugh with them. I have 2 internet best friends, that I hope one day to meet. My favorite subjects in school are science, gym and ELA. I've been a perfect attender for ...
