Physical Effects of Essential Oils

Challenge: Health

Category: Intermediate

Region: Sahtu

City: Norman Wells, NT

School: Mackenzie Mountain School

Abstract: My project was on the physical effects of essential oils. I wanted to see how essential oils effected individuals heart rate and blood pressure to accurately analyze the physical effects of essential oils.

Biography

My name is Margaret Hodgson, I am from Norman Wells NT, and I am in Grade 8 at Makenzie Mountain school. I am very interested in Science and Art. I plan on pursuing a career in writing. I drew inspiration for this project by helping at the Norman Wells Bottle Depot. I wanted to find a way to reuse the cardboard brought in by the customers at the bottle depot. If somebody else were to conduct an experiment similar to this, I would advise them to start early and make sure they have a enough time frame to complete the project.
