Aspirin - A Heart's Best Friend

Division: Life Sciences

Category: Junior

Region: Simcoe County

City: Shanty Bay, ON, Barrie, ON

School:

Abstract: This project was an investigation to discover which acetylsalicylic tablet dissolves the fastest in hydrochloric acid to provide the better chance of surviving a heart attack. Research was done on acetylsalicylic acid, heart disease, and other related topics. From the results, an innovation called "The Heart Attack Kit" was created.
