

## CWSF 2019 - Fredericton, New Brunswick

### Alexandre Comeau

#### Gaspillage explicable

**Challenge:** Health

**Category:** Junior

**Region:** North-West New Brunswick

**City:** Miramichi, NB

**School:** Dr. Losier Middle School

**Abstract:** Ever wonder if the best before dates on our food was accurate? Many Canadians throw out food daily because it has passed the "best before date". I chose to explore the reality of best before dates and if it is necessary to throw out the amount of food Canadians throw out daily.

#### Biography

\*I was inspired after listening to a CBC radio call in regarding the amount of food wasted in Canada annually. The overall data was staggering and I felt as Canadians we can do better. \* I would like to change the process in which I conducted my tests and change some consistent variables to see what impact it would have on my results. I would also like to add more food choices to tests. \* Find something that you are interested in and follow your passion. You are capable of finding answers to the questions you always thought of growing up.
