Robots In The North

Division: Earth & Environmental Sciences

Category: Junior

Region: Kitikmeot

City: Cambridge Bay, NU

School: Kiiliniq H.S.

Abstract: This project researched the uses of robots in cold weather climates like the Arctic and Antarctic. A robot was built to demonstrate the ability of a machine to measure the lengths of the sides of a rectangular shape with the idea of determining perimeter and area. Real examples of robotics in cold weather climates are described.

Awards	Value
The University of Western Ontario Scholarship Silver Medallist - \$1500 Entrance Scholarship Sponsor: University of Western Ontario	\$1 500
Silver Medal - Computing & Information Technology - Junior Sponsor: Intel of Canada, Ltd.	\$700
Total	\$2 200
