

## CWSF 2006 - Saguenay, Québec

### James White

#### The Indestructible Home:2006

**Division:** Health Sciences

**Category:** Intermediate

**Region:** Northwest Saskatchewan

**City:** Unity, SK

**School:** Unity Composite H.S.

**Abstract:** My project is The Indestructible Home:2006, built to withstand almost any natural disaster. It combines various construction methods, design concepts, and some radical ideas in order to endure the forces of nature. Overall, I found these ideas to be very successful, though they were hard to illustrate in a model.
