

# CWSF 2006 - Saguenay, Québec

## Artin Memar-Makhsous

### Hemisphere Dominance

**Division:** Life Sciences

**Category:** Junior

**Region:** Toronto

**City:** Toronto, ON

**School:** Giles School, The

**Abstract:** The project's purpose was to determine cerebral dominance in children and its correlation with gender. After finding that children are right-hemisphere dominant, adolescents were tested to prove the theory that hemispheric dominance is acquired during maturation. The findings, applied to our educational system, can improve the way children are taught.
