Abstract: For my project I decided to create a biodegradable cup. The purpose of creating a biodegradable cup was to find an alternative to the chemically induced Tim Horton's cups that we find littering our streets day after day. Hopefully by using the biodegradable cups that I've created as opposed to the Tim Horton's cups, we will be able to help in preserving our environment.

Awards	Value
The University of Western Ontario Scholarship Silver Medallist - \$1500 Entrance Scholarship Sponsor: University of Western Ontario	\$1 500
Silver Medal - Earth & Environmental Sciences - Junior Sponsor: Petro-Canada	\$700
