Safe Streets: Preventing Drunk Drivers

**Division:** Health Sciences

Category: Junior

Region: St. James-Assiniboia

City: Winnipeg, MB

School: Bruce Middle School

Abstract: In Canada over 222,260 people are injured every year in alcohol related

crashes. I wanted to see if I could create a device that can immobilize a vehicle if the driver is under the influence of alcohol using a breathalyzer and Parallax BASIC stamp. I was able to create a system which would

prevent drunk drivers from operating a motor vehicle.
