Ice Cream: The Meltdown - Are all ice creams created equal?

Division: Sciences de la vie

Catégorie: Junior

Région: New Brunswick

Ville: Saint John, NB

École: Beaconsfield Middle School

Sommaire: This project looks at reasons why all ice creams are not created equal. It looks at the purpose of various ingredients and their affect on taste, texture and appearance. Testing was done on four different brands to determine what makes a good quality ice cream and that you do you really get what you pay for. Haley Maillet, Junior, CWSF 2006
