

## CWSF 2006 - Saguenay, Québec

## **Ashley Patel**

## Cognition?

**Division:** Life Sciences

Category: Junior

Region: Peterborough
City: Peterborough, ON
School: Lakefield College School

**Abstract:** This experiment tested if cognitive skills tests are a good indicator of one's

academic performance. Some subjects were chosen to complete a cognitive skills test. It was predicted that there wouldn't be a correlation between the test and academics. This was correct; there was not a correlation. In conclusion, when trying to determine one's intelligence abilities, cognition shouldn't be used alone, but combined with academics.

Awards	Value
The Actuarial Foundation of Canada Award - Junior	\$500
Total	\$500
