

## CWSF 2006 - Saguenay, Québec

### Luke Lazaruk

#### How is styrofoam recycled?

**Division:** Engineering & Computing Sciences

**Category:** Junior

**Region:** River East Transcona

**City:** Winnipeg, MB

**School:** Chief Peguis Junior High

**Abstract:** This project studied the effectiveness of recycling styrofoam because of the massive amount left in landfills. I discovered from my research that styrofoam is not recycleable in Winnipeg but because of my concern for the environment, I came up with a way to recycle styrofoam simply by dissolving the styrofoam. - Luke Lazaruk, Junior Gold Medalist, RSF, Winnipeg, 2006-
