You Be the Judge

Division: Sciences de la vie / Aucun

Catégorie: Junior

Région: Western Manitoba

Ville: Brandon, MB

École: New Era

Sommaire: You be the judge is the concept of stereotyping. Remember looking at strangers and making your impression of individuals by observing their clothing. Individuals use their own personal attitudes to judge another. Personal perception could be from their own personal experiences, beliefs, value system and environment. Don't judge using visual cues. Your first impression regardless if it's false or true, is always a lasting one.

Biographie

I'm 13 years old and currently attend Ecole New Era School, Brandon, Manitoba. I moved to Brandon because my father was transferred to Shilo with 2 Princess Patricia Canadian Light Infantry (PPCLI). I speak several languages but I'm fluent in English, French, and Portuguese. I dabbled in Spanish, Italian and Tagalog (Filipino) with my friends. I enjoy dancing, acting, singing, and playing percussion for band. I'm also very active on our schools sports teams; I play basketball and volleyball where I was assistant captain. I'm very passionate about leadership; I do many things to show my leadership such as speaking to others about our school and the French language program; student council President and last years Secretary. I was asked to be a Student Representative at the Brandon School Division budget review. Last year, I won the Canadian Parents for French Discours for Ecole New Era School and represented our school at the finals. This year i was happy to be 2nd runner up for Best of fair award at the Western Manitoba Science Fair.
