## Biographies

Hilary - My full name is Hilary Alexandra Walsh and I am a Grade 10 student at St. Gabriel's All Grade School in St. Brendan's, Newfoundland and Labrador. I am a member of my school's Student Council and I am also an altar server for my church and a member of my community's Parish Council. My hobbies include playing and watching sports, and reading. After high school I plan on attending a university where I can obtain a degree in Behavioral Science and I would love to pursue a career in law enforcement. Peter - My name is Peter O'Rielly, I'm 16 vears old and a level 1 student at St.Gabriel's All Grade School on St.Brendan's island Newfoundland (population 160). I am a member of student council an honour student, an active volunteer within my school and community and a member of our schools floor hockey team. I enjoy all sports especially hockey, basketball, and tennis. I enjoy watching movies, reading books, drawing portraits and hanging out with friends. When I graduate I plan to attend Memorial University of Newfoundland where I hope to become either a mechanical engineer or mathematics teacher.

| City:     | St. Brendan's, NL  |
| School:   | St. Gabriel's All Grade  |
| Abstract: | This project deals with sound absorption and the implications that certain<br>properties can have on a material's ability to absorb sound. By using an<br>oscilloscope to project a viewable soundwave, our experiment has shown<br>that certain alterations can change sound absorption. Our findings proved<br>that both thickness and moisture have minimal effects on sound absorption |

all.
