

ESPC 2005 - Vancouver (Colombie-Britannique)

Ryan Lavender

The Cutting Edge

Division: Sciences physiques et des mathématiques

Catégorie: Junior

Région: Chinook Country

Ville: Calgary, AB

École: Red Deer Lake School

Sommaire: I tested the level of performance using different skate sharpening cuts. I found that a skate blade with a small radius of hollow caused me to skate faster and stop quicker. A larger radius of hollow caused me to skate slower and take much further to stop.
