Nigel Gregory

Left or Right?

Division: Life Sciences / None

Category: Junior

Region: Sahtu

City: Norman Wells, NT

School: Mackenzie Mountain School

Abstract: This project studied the dominance of the body. It determined which side of the body was more commonly used by the people around us. After the experiment was conducted it revealed that 76% of preferred to people used their right side over only 34% who preferred their left.

Biography

My name is Nigel Gregory and I am in grade eight attending Mackenzie Mountain School. I have lived in Norman Wells now for almost two years now and gained a lot of respect from teachers here. I have a dog by the name of Taz. Also, my parents are divorced and I live with my mother while my father lives in Newfoundland. My hobbies and interests include collecting fossils and vintage hockey cards, playing hockey with my friends, and reading. Over the years I have received many awards including top student of the year, second language award, honours overall, and the math and science award. At the moment I don't have a career plan or post-secondary education plan.
