Victoria Marchand

How Pocket PCs Affect Reading Comprehension

Division: Sciences de la terre et de l'environnement / Aucun

Catégorie: Junior

Région: Chatham-Kent

Ville: Bothwell, ON

École: Good Shepherd C.S.

Sommaire: In my project "How Do Pocket PCs Affect Reading Comprehension?" I tested if Pocket PCs affected learning in a classroom verses reading on paper. I tested a classroom using Pocket PCs by having them read three different stories; at their reading level on three different days then they answered questions. I reached the conclusion that Pocket PCs do have a positive affect on reading comprehension.

Biographie

My name is Victoria Marchand; I am 13 years old and am in grade 8 at Good Shepherd in Thamesville I live on a farm outside of Bothwell and I have one brother and one sister named Eric and Christina. My sister Christina is currently on a youth exchange in Germany and in March we visited her there. My mom is from Germany also and still has siblings living there. My interests include playing sports, reading books, and participating in 4-H clubs around Chatham-Kent. Along with those activities I play piano and horseback ride I also like to spend time with my friends.
