Mike Maclsaac

The Amazing Alter-Leg

Division: Health Sciences / None

Category: Intermediate

Region: Cape Breton

City: Sydney, NS

School: Riverview High School

Abstract: The "Alter-leg" is an innovation that incorporates the use of material such as springs, sponge, and a heel stirrup to create a device that relieves pressure off of one's foot in order to decrease the length of time a person with a broken leg needs to use crutches. After numerous tests, the "Alter-Leg" proved to be more convenient and safer compared to crutches.

Biography

hey Im Mike Maclsaac and I am 16 years old. I go to Riverview High School in Coxheath, Nova Scotia. I enjoy playing hockey, drumming, skateboarding, snowboarding and lots lots more.
